Break 9:50 am

Supported Decision-Making Explored and Explained 10:00 am
Thomas F. Coleman, Legal Director, Spectrum Institute
Attorney Tom Coleman will explore the concept of supported decision-making (SDM) from a legal perspective and explain how it differs from substituted decision-making mechanisms such as powers of attorney and conservatorships. Anyone considering SDM needs to address issues such as constitutional rights, legal capacity, undue influence, risk of abuse, conflict of interest, fiduciary duty, and legal liability. Finding the proper balance between respect for individual freedom and providing societal protection will be a theme running through the presentation. Time will be allowed for questions and answers.
